Erik Krauss Appreciation

After four years of service to the Hartford Energy Commission, Erik Krauss is stepping back to focus on other projects. Erik's perspective has helped me, staff, and elected officials think about how we can continue to be good energy and environmental stewards for not only Hartford, but all of Vermont.

E-Bike Lending Program

The Hartford Energy Commission with help from Planning and Local Motion from Burlington will be holding demos and offering e-bike loans from Town Hall and the Quechee Library April 18th through May 8th. Keep an eye out on your favorite method of Hartford communication for more information including how to sign-up. Many thanks to HEC for getting this rolling. Matt Osborn from Planning and Martha McDaniel from HEC who will be facilitating the rentals.

Outdoor Dining

While we're seeing an increased in vaccination rates across Vermont, we're still preparing that local restaurants will have reduced indoor capacity allowances this summer. Public Works, Police, and Fire have been working together to provide additional outdoor dining space for our downtown White River Junction restaurants. This includes ensuring that we meet requirements for first responders as well as access for those using mobility devices such as wheelchairs. Public Works is identifying funding and suppliers for additional concrete barriers to ensure that our visitors are safe from vehicles.

Our Clerk's office is clarifying how the State is regulating outdoor and provisional liquor licenses in order to ensure that we place barriers and authorize any tables outside in according with those regulations. We are also asking downtown restaurants to do their own due diligence on this issue.

Staff is also exploring providing picnic tables in public parks for patrons that would prefer to use takeout options. However, we need to determine if this is a viable option regarding increased trash and recycling clean-up.

We remain hopeful that we will be able to install all the barriers in the next three weeks as we are able to purchase them. Public Works will remain in contact with my office and with businesses in the area.

Wesley Black Meritorious Performance Award

I'm honored to announce the creation of this award which will be presented to the Hartford Fire Department staff member who embodies the character and qualities that Retiring Firefighter Wesley Black embodies, such as bravery, selflessness, fortitude, hard work and courage. Thank you to the Fire Department for proposing the award in honor of Wes who has not only served our town as a first responder but served our country as an infantryman.

<u>Welcome</u>

I want to continue to thank the people of Hartford for their warm welcome. This week I spent time with Denis Backus and the folks at the VFW. I also spent a fun hour with our local Rotarians, who could power the entire state with their energy. Thanks for inviting me and keep emailing. I enjoy getting out in the community.

Significant Activity Report April 6, 2021

FIRE

- 1. On April 1st the department honored and acknowledged the service of FF Wesley Black. Wesley has served the community over the last five years. He is retiring to be with family.
- 2. The department has accepted conditional offers of employment to two Fighter/EMT's. Kevin Montminy has been serving with the St. Johnsbury Fire Department and is looking for a new experience in Hartford with his family. Sean Spencer has been serving as a firefighter with the City of Bangor, ME for the last few years, Sean is looking forward to moving back to Vermont to be near family. Both start on April 12, with there previous experience we hope to have them online within a few weeks.
- 3. The department has completed two months of staffing Station #2 when shift levels are at five. We are already seeing dramatic decreases in response time when staffed. Currently reducing response time on average of 7 minutes.
- 4. The simulcast radio project continues with finalizing the service contract and the financing agreement.
- 5. Staff will be traveling to the NH Fire Academy next week to complete their annual live fire training exercises. We will be attending with Lebanon and Hanover Fire Department as they are our primary resources when building fires occur.
- 6. As the snow season ends and we transition to a greener landscape, we want to remind residents of the burn permit process. Please contact the department to obtain permission to burn (295-3232). Permits are issued daily and determined based on weather conditions. The department has already responded to "out of control" brush fire this season.
- 7. During this period the department has responded to 70 calls for service.

- We continue to register participants for Hartford Youth Lacrosse.
- Vermont E-Sports League is a virtual program we are pushing out through the community.
- The new Parks & Recreation Program Guide was distributed through the schools.
- Office continues to receive multiple reservation requests for park usage.
- Department is working with the WRIF White River Indie Films for use of the projection system and screen for First Friday's and a event in Lyman Point Park this May.
- Camp Ventures Summer Camp registrations continue and sessions are filling up fast.
- We have received several calls regarding patrons not following the rules for dogs on a leash and have pushed out educational information regarding the park rules which includes cleaning up after your pet in public parks.
- The arena season is complete and the facility is ready for High School Spring Sports
- Park crew members are working to open up the park gates. Most parks will be open for use by April 3rd. Many playing surfaces are still to wet for play.
- RFP's are under review for Tree Care and we are executing several tree projects in Cemeteries.

AGENDA MEMORANDUM April 6, 2021 Town Selectboard Meeting Item: 4 & 5.a. Submitted by: Lori Hirshfield, Director, Department of Planning & Development

Subject: Cornerstone Community Center VCDP Planning Grant Public Hearing and Decision

Background: On September 1, 2020, the Selectboard approved the Cornerstone Community Center (CCC) proposal to use Vermont Community Development Program (VCDP) funds for a Planning Grant. The purpose of the grant was to prepare for future improvements to the 14 Elk Street property as a multiuse facility with programming for children, adults, and older citizens from diverse socioeconomic backgrounds. The property is owned by Praise Church doing busines as (dba) Cornerstone Community Center. Since the VCDP is funded from the Federal HUD Community Development Block Grant program, applications must be submitted through a municipality. That application was not approved due to the number and competitiveness of other applications.

Use of the VCDP funds requires meeting certain criteria, such as at least 51% of those benefitting are low-andmoderate-income households, and historic preservation given the historic nature of the building. The program also requires a public hearing to obtain community input on the use of the federal funds. The process is for the Selectboard to open the public hearing, receive public comment, close the public hearing, and then proceed to Item 5.a. for discussion and action on the application.

Discussion: The CCC wants to create a space that is safe and accessible for everyone and meet licensing standards. The improvements also are intended to preserve this historic building that is listed as a contributing structure in the Hartford Village Historic District. CCC's initial renovation conceptual plans indicated approximately \$500,000 in facility and property improvements. The Planning Grant will enable a more thorough review of needed improvements and the cost for a possible future VCDP Implementation Grant and other funding sources.

The CCC is proposing a \$48,850 budget for the planning phase - \$43,970 from the VCDP Grant and \$4,880 in matching funds from the CCC. Planning activities involve gathering additional information needed to determine the impact and feasibility of a future project implementation phase. These planning activities include architectural and engineering analysis to identify the implementation scope and cost estimates; completing a Phase 1 Environmental Site Assessment; completing a project Environmental Review; identifying any environmental work that would need to be done with project implementation; and identifying other sources of funding for project implementation. Attached is the draft Planning Grant application which provides more information on the project goals, scope, and budget. Under the Project Need section, additional information was submitted to the State in response to the Staff Analysis highlighted in red. Also under this section is additional information provide by CCC on March 30, 2021 highlighted in blue.

<u>Use of HUD Funds for Faith Based Activities</u> - Cornerstone Community Center is an entity of Praise Chapel. The VCDP program allows faith-based organizations to receive funds. The following is the guidance received from the state which the applicant says it will be able to meet.

HUD Definition of Faith-Based Organization

A faith-based organization that applies for, or participates in, a HUD program or activity supported with Federal Financial assistance retains its independence and may continue to carry out its mission, including the definition, development, practice, and expression of its religious beliefs, provided that it does not use

direct Federal Financial assistance that it receives (e.g., via contract, grant, sub-grant, sub-award or cooperative agreement) to support or engage in any explicitly religious activities (including activities that involve overt religious content such as worship, religious instruction, or proselytization)

HUD does not distinguish the use of funds by faith-based organizations for planning grants. However, given that the implementation grant will be subject to this requirement, VCDP wants to ensure compliance now given the intent of the planning grant is to prepare for a future implementation grant application.

The state outlined two allowable approaches to use VCDP funds for improvements to property owned by a faith-based organization.

- 1. Use VCDP funds to renovate a specific space(s) dedicated just for eligible nonfaith-based functions/activities.
- 2. Determine the percentage of time a specific space will be used for nonfaith-based activities and apply that same percentage to determine the amount of VCDP funds that can be used towards the improvement costs.

CCC currently is tracking the current use of building for non-faith-based activities, to apply the percentage of VCDP funds that can go towards a future implementation project.

CCC is requesting the Selectboard approve resubmittal of the VCDP Planning Grant application to the State with the additional information as noted and project timeline modifications. The next VCDP grant submittal deadline is April 13, 2021 for a June 10, 2021 VCDP Board review meeting.

Financial: The Town would have Grant administrative functions which include execution and oversight of the grant agreement with the state and subgrant agreements with CCC and TRORC; general grant and budget oversight; reviewing and processing vendor invoice payments; VCDP reporting; and town and state audit requirements. The project budget includes \$6,600 to contract with Two River's Ottauquechee Regional Commission for other grant administration activities and overseeing grant requirements for the planning activities such as procurement, environmental review, and reporting information for submittal to the Town and state. The CCC would be responsible for providing the matching funds, completing the grant project scope of work, and some grant and project administrative functions. The budget also includes \$4,000 for Town legal expenses related to the grant agreement, and audit costs.

When the Selectboard reviewed the application in 2020, concerns were raised by staff regarding capacity to oversee additional grants. This is still a concern. Given that the planning grant is intended to prepare an application for a future VCDP implementation grant, the impact on staff capacity includes consideration of a future VCDP implementation grant. The demand on staff time is much more for implementation given the cost, complexity, duration, number of invoices and VCDP progress reports; to prepare, review and process these invoices; Town and state audit requirements; ensure compliance with state, federal and Town procurement requirements; and five years of annual post-grant closeout reporting. Although approval of the planning grant does not obligate the Town or the state to approve a future implementation grant, the state does see this application as leading to a future implementation grant submittal. Should the Selectboard approve the planning grant, staff suggests reviewing staff capacity with the Selectboard prior to CCC preparing any request to the Selectboard regarding a VCDP implementation grant application.

Recommendation: If the Selectboard supports the application, approve the attached Resolution for VCDP Grant Application Authority and direct the Town Manager to complete all the necessary documents to submit the application and administer the grant. Given the use of federal funds, authorize the Selectboard Chair to sign and certify all documents necessary for the application and implementation of the grant.

Project Need

Project need is well-documented (e.g. studies, updated data, etc).

Describe the need for this project.*
 The following information was provided by the CCC -

Needs Statement:

Within Hartford, Vermont and the greater Upper Valley, there are individuals and families with unmet needs:

child care, after-school care, food insecurity, homelessness, and coordinated services for children, families, and elders from local, regional, and state agencies. Vermont's 2020-2024 Consolidated Plan states that "Strengthening communities improves the quality of life for Vermonters." The new Hartford-based Cornerstone Community Center provides access to abundant resources that enhance the lives of those in need, and in turn, ensures a viable community for all.

VCDP STAFF QUESTION:

How many people are currently being served?

CCC RESPONSE:

The early care and education and out-of-school time program are currently serving 36-40 children from birth through age 12.

The food shelf is currently serving 10,248 people per year, with 125,000 pounds of food annually.

Executive Summary:

Hartford, Vermont and the Greater Upper Valley would benefit greatly from a designated community center that fosters a sense of belonging for people of all ages and walks of life. Such a place would inspire connection, community-building, and resilience. Knowing that "The Opposite of Addiction is Connection," the best way to support our community is through building a place to come, belong, and thrive. Cornerstone will open a community center that hosts an intersection of generations, income levels, and disability statuses. To accomplish these goals Cornerstone Community Center will be applying for a \$60,000 Planning Grant with the Vermont Community Development Program (VCDP) and, ideally, will apply for a Public Facilities Implementation Grant in June of 2021.

VCDP eligibility requirements state:

"A faith-based organization that applied for, or participates in a HUD program or activity supported with Federal Financial Assistance retains its independence and may continue to carry out its mission, including the definition, development, practice and expression of its religious beliefs, provided that it does not use direct Federal Financial Assistance that it receives (e.g., via grant contract, sub-grant, sub award or cooperative agreement) to support or engage in any explicit religious activities (including activities that involve overt religious content such as worship, religious instruction, or proselytization.)

Cornerstone Community Center will be open to everyone; no matter a person's background or beliefs.

VCDP Planning Grant 2020

Organization: Town of Hartford

Project Need

The Vermont Community Development Program money is available for faith-based organizations as long as the funds are not used for religious teachings. Religious teaching is what happens at Praise Chapel and is a separate program from Cornerstone Community Center.

Background:

Pastors Lani and Kathleen Janisee came to Hartford, Vermont in 1979, and began to learn about the region and its communities. In the early 1990's, they became the founding pastors of Praise Chapel. From those humble beginnings, the Janisses felt a mandate to care for their neighbors. To that end, Lani

Project Need

and Kathy opened the food shelf and the early care and education programs. The Janisees also played an integral role in the historic preservation of propertied in Hartford Village including, the House of Seven Gables and Governor Samuel Pingree's Home. In addition, Lani and Kathy continued to engage with their neighbors as well as volunteered in multiple leadership roles in town. These roles provided them with deeper insight into Hartford's strengths and struggles, inspiring a project that would lead to the town's continued flourishing. Thus, begins the story of the Cornerstone Community Center: a place where area residents can come, belong and thrive.

Cornerstone Community Center's vision will address the following community needs:

#1. Increased access to high-quality early care and education as well as Out of School Time programs for youth

#2. More deeply integrated services, where human service agencies, health care providers and mental health providers can convene to support children, families and adults and those in transition

#3. Increased food insecurity in the region

#4. Workforce development programs and a new academic culinary program to support those entering or reentering the workforce and the local and regional creative economy

#5. A greater "Sense of Place" to build relationships and resiliency

#6. More programs and services that support older adults to meet the growing demand

#7. A conference and event center for Hartford, Vermont and the surrounding region

#8. Preservation and maintenance of a historical building for the Town of Hartford

2. Describe the manner in which the need was determined and how your project (proposal) will meet the need described in #1 (cite relevant data and attach any studies or information to support this need).* The following information was provided by the CCC - Over the past several years, CCC's expansion committee led by its founders identified the Upper Valley community's needs through research, data collection and surveys of the community residents. Needs were identified in a number of areas that include programs for youth, adults in transition, older adults, and support for workforce and career development.

Project Need

#1. Needs for Quality Early Care and Out of School Time Programs:

The Upper Valley is a thriving community, yet there has been a significant decline in available licensed child care placements throughout the region. This shortage impacts parents' ability to work, and thus also adversely affects the local economy.

The Early Care and Education Association reports the following data regarding the number of children birth to 5 and the number of available licensed slots in the Upper Valley region of New Hampshire and Vermont in 2019 and 2020 with the onset of the COVID-19 Pandemic:

2019: 2020 (Post COVID)

Number of Children (Birth to 5): 10,000 Number of Children (Birth to 5): 10,000

Number of Licensed Spots: 5,000 Number of Licensed Spots: 1,000

Resource: Status of Child Care in the Upper Valley of New Hampshire and Vermont Pre and Post Covid-19, https://eceauv.org/

The 2018 Afterschool Alliance report indicated the following statistics for Vermont's School Age Children:

Estimated Number of School Age Children: 60,000

Number of Licensed Spots: 21,000

Number of waitlisted Children: 22,000

Children unsupervised during out of school time hours: 21,690

#1. Activity: Expansion of Early Care and Education and Out of School Time Programs:

Potter's House School and Child Care Center has served the Upper Valley since 1995. We are recognized in Vermont as an Independent School and a specialized birth through preschool program; one of only six in the region, which serves children from diverse economic and cultural backgrounds. About one-third of our students come through the Department of Children and Families looking for a

Project Need

stable and loving place after having experienced various trauma in their young lives. We continue to reach families in both Vermont and New Hampshire. We proudly participate in STARS, Vermont's quality recognition system for childcare, preschool, and after school programs. Having reached 4 Stars, we proudly exceed state regulations by providing professional services that meet the needs of children and families. We support foster care parents in the community through our relationship with DCF and have witnessed adoptions of children in our care. The afterschool program is open to all youth from surrounding communities. The program focuses on academic enrichment and character development of participating children and teens, also using resources in the game and activities center. Participating students receive individual support while building relationships in the community.

#2. Need: Integrated Services systems:

The Department of Children and Families and other agencies struggle with finding meeting space for professional development training, transitioning families to reunification, and family visits.

Building Bright Futures 2019 Report; "How are Vermont's Young Children and Families?" This report indicates that children's school readiness in Hartford, Vermont has increased from 68.3% during the 2015-2106 school year to 82.5% for the 2016-2017 school year due in large part from interagency collaboration.

#2. Activity: Launch a "Shared Services Hub" for Service Integration:

Our goal is to provide a central and much-needed shared services hub to help support and create high quality childcare in the region. We envision a collaborative community approach to increasing the quality, efficiency, and sustainability of Upper Valley childcare programs. As a local hub, DCF, educators, clinical staff, and human resources will work together with other community partners to support businesses. They will identify needs, leverage resources, find opportunities for professional development, provide counseling, assist writing resumes, utilize the Culinary Career Academy, share expertise and ideas, while providing high quality services for families and children in the region. The center will continue to grow organically to meet current and future needs in our community.

Project Need

#3. Needs of the Hungry:

Before the pandemic, research on hunger indicated that there are roughly 60,000 Vermonters living in food insecure homes. With the onset of the COVID-19 pandemic and increased unemployment, the number of hungry Vermonters has increased by as much as 46%, and that number is expected to rise.

Resources:

Hunger in Vermont,

June 2020 Report Unemployment Report for Windsor County, Vermont Department of Labor,

http://www.vtlmi.info/laus.pdf

#3. Activities to Support the Hungry:

Joseph's Storehouse will continue its more than 28 years as a food shelf outreach serving 25 towns in VT and 22 in NH. We currently distribute 1,000 to 3,000 pounds of meat, fresh produce, pantry items, and toiletries every Saturday and Sunday with the help of 28 volunteers from the Upper Valley. We plan to expand food outreach to additional people as well as begin to provide prepared meals by culinary students, volunteers and the commercial kitchen.

#4. Need for Career and Workforce Development:

We know that Vermont's economy relies heavily on tourism and the restaurant industry. Today, there are fewer culinary programs in Vermont and New Hampshire than in prior years. The closest culinary program to our region is the Vermont Food bank's Community Kitchen Academy in Barre.

Vermont Department of Labor Economic Profile Series indicated an unemployment rate of 2.6 percent in 2019. Due to the COVID-19 pandemic; June 2020 unemployment rate now stands at a 15%. Resources:

#4. Activities to support Career and Workforce Development:

Cornerstone Career Development Center is designed to offer innovative career development training to youth and adults who are in transitions, amid life-challenges, or are facing underemployment, unemployment, or barriers to workplace success. Participants will have opportunities to seek additional academic and career enrichment through the Culinary Career Academy food-services training program. They will also learn about entrepreneurship in hospitality, in services such as catering. Candidates will be recruited first from program areas of the Cornerstone Center. Additional recruitment will come from collaborations with the Hartford Career and Technology Center and community partners which offer stabilizing life services. Our early childhood education and afterschool programs, the food shelf and Culinary Career Academy, as well as the shared services hub, will offer a setting for each field of interest for the individuals we serve.

Cornerstone Community Center has a large commercial kitchen and will be an integral part of the community center by providing catering for those that utilize the conference and event center, the café, the food shelf and the Culinary Academy. In addition to the job training program that prepares individuals for careers in the food service industry, students can develop and apply new skills by rescuing food that would otherwise be wasted from grocery stores, farms and food service companies. They will learn to transform this food and create meals to be distributed among the food shelves and meal sites in our region. These students will also serve customers in the Cornerstone Café. We continue to collaborate and build relationships with Willing Hands, VT Food Bank, and other businesses that participate in our food programs. Currently, there is a shortage of trained cooks and servers in Upper Valley restaurants, which causes patrons to wait, even when there are empty tables available.

#5. Need for a "Sense of Place."

Community centers that are open to all individuals, no matter their background or socio- economic status, allows people to build relationships with others, access new resources and gain overall resiliency and a sense of belonging. Community Centers provide safe places for children, promote wellness, activity and enrichment for everyone, as well as supports the local economy and increases property values.

Early Care and Education allows communities to thrive. The Vermont Blue Ribbon Commission's recently published findings state that early care and learning is critical to the economic and community wellbeing of Vermont. Every dollar spent on high-quality early care and learning programs yields a return on investment that ranges from \$4 - \$9. An investment in the field creates a multitude of benefits:

? Children's overall development is supported including health and wellness, social and emotional well-being and academic success throughout their entire lives

? Special Education research indicates the importance of a quality early learning program for children of

Project Need

poverty, those at risk for neglect or abuse and those with developmental concerns

? Parents are able to enter or remain in the workforce supporting the local economy

? Parents are better able to support their own children's healthy development decreasing reliance on social services

? Support the future labor market and increase earning potential

? Decrease later educational costs, health care expenses and correctional costs

#5. Activities to support Sense of Place."

The Cornerstone is a community space for events, both ongoing and special, that bridge younger and older generations. This space is dedicated to bringing the community together in an easily accessible place where educational and fun activities are planned on an ongoing basis. The Event Center will have a 4,400 square foot game room and activities center on the first level. People of all ages can enjoy games including games billiards, ping pong, air hockey, foosball, UNO, dominos, cards, chess, puzzles, and even some video games. The center will host community tournaments, Lego building, and events that will draw people who might not visit on a regular basis. The area is also large enough to host community movies and TV sporting events viewed on large screen TVs that will be spread out for comfortable and easy viewing.

#6. The Needs of Older Adults:

Older adults' benefit from programs that support the slope to retirement as well as a range of activities as they age.

The US Census Bureau reports that there over 25 percent of Hartford residents and just under 19% of Lebanon, NH residents are over 65. Data also concludes that nearly 12 % of older adults in Windsor County and just under 5% in Lebanon are living in poverty.

#6. Activities to Support Older Adults:

CCC's "Seasons Senior Program" will be open to area seniors for programming, volunteering, general recreation and opportunities to participate in intergenerational programs. We also envision older adults sharing skills and their guidance through mentoring and coaching and intergenerational programs. Older adults will also have the opportunity to organize special events and enjoy the game and activities center. Seasons will also provide opportunities for connecting with others, exercise and learning new skills such as computer literacy.

#7. Need for a Conference and Event Center:

Over the years, the building has been utilized for community events including the Town of Hartford and Hartford High School to name a few. Many Upper Valley organizations are looking for meeting space for training sessions, small conventions, celebrations, dinners, galas, and holiday parties, charity events, board meetings, and award ceremonies with company milestones and employee appreciation to name a few. With evolving trends in business best practices, companies are realizing the return on investment in building relationships with measured success both in their organization and surrounding community.

There are limited options available for larger conferences in Hartford, Vermont and the region outside of hotels and DHMC.

#7. Activity: Provide a Conference and Event Center for the Community:

The facility has almost 9,000 square feet and capable of hosting 400 comfortably. There are also additional rooms for more intimate meetings and gatherings. The space is supported with an elevator for lower and main floor access and a large surrounding parking lot. It will be wired with high speed internet access and technology resources, overhead projectors and sound for online meetings, supporting the interconnected world in which we live. The center provides meeting space and event services for commercial businesses, organizations, and individuals. These include family reunions, camps, performances, meetings, weddings, proms, and special events. The Center will also host community events and other fun nights out for individuals and families of the Upper Valley. The Cornerstone is a community space for both ongoing events, and a meeting place for special events geared toward strengthening and bridging young and older generations. This space is focused on bringing the community together in a common and easy-to-get-to place where educational and fun activities are planned on an ongoing basis.

#8. Need to Preserve a historical building:

Project Need

The Town of Hartford's Town Plan that was adopted in June 2019, states that "since 1993, many historic buildings in Hartford have been demolished. The loss of historic buildings has a significant effect on a village or neighborhood's historic character." Amongst its many goals, Hartford is dedicated to preserving and protecting its historic buildings. Strategies and activities to achieve these goals include but are not limited to:

? Prevent the loss of historic buildings and historic character.

? Develop policies and incentives to encourage restoration and re-use of historic buildings.

? Develop practical building standards that balance historic preservation while meeting modern development needs.

? Provide information to property owners about historic preservation resources and techniques.

? Fundraise to support historic preservation efforts on critical buildings.

? Develop partnerships for historic preservation.

? Market and promote the historic and architecturally significant features of the Town's village centers to encourage tourism and the rehabilitation and reuse of existing historic structures and sites.

#8. Historic Preservation Activity:

Through a major expansion into 25,000 square feet in the historic Horace Peace Building (former Elks' Lodge), right next door to their existing location, Cornerstone is set to address community needs by dramatically expanding services to include youth development, career development, expanded food shelf, wellbeing and senior activities, plus shared services hub and meeting/event space. The Cornerstone Community Center will advance the wellbeing of the entire Upper Valley by bringing a centrally anchored location for people to connect with one another. Some programs will expand and others will be newly developed, but it is the reclaiming of this historic building that will enable the transformation from a patchwork of support programs to a center where community can thrive.

Project Need

There is not a more appropriate solution than the one presented.

- 3. a) Describe why this is the best approach to meet this need.*
 - The following information was provided by the CCC -

Building "Strong Communities" is the goal of both the Vermont's 2020-2024 Consolidated Plan and the Town of Hartford's 2019 Town Plan. Key elements to a resilient, vibrant community include initiatives that promote health, wellness, economic development, and partnerships with government and local agencies. Cornerstone Community Center's vision is to provide a place where everyone can come, belong and thrive. The plan is to provide services to people of all ages and demographics contains proven methods for creating thriving, livable communities. VCDP Staff Analysis of Application - Project Need

What is the breakdown between religious activities vs. non-religious activities in this space?

CCC Response to Staff Analysis -

Request for Further Clarification in Fall of 2020:

Praise Chapel is a faith-based organization with a separate, adjacent facility where religious programming is held. The founders of Praise Chapel, Lani, and Kathy Janisse, initially identified the need for a community center in the region and created the vision for a place that will be welcoming to everyone, no matter their beliefs, background, or income level.

CCC understands and will adhere to all Federal Financial Assistance guidelines for public facilities. Each of the community center's new initiatives will be 100 % secular. Businesses, organizations, community groups, including faith-based entities will be encouraged to utilize the center for their program events.

It is difficult to predict if outside faith-based organizations would contract to utilize potions of the community center in the future. CCC requests clarifying definition of "*explicit religious activities*" * described in VCDP's eligibility requirements. A definition will support CCC in upholding compliance with state and federal guidelines for financial assistance.

*(Resource: <u>http://accd.vermont.gov/community-development/funding-incentives/vcdp</u>)

In the event that a faith-based organization chooses to utilize a center space will be doing so under an agreement to comply with the following guidelines:

That the facility is not to be used "to support or engage in any explicit religious activities."*

OR

If an organization engages in explicitly religious activities (including activities that involve overt religious content such as worship, religious instruction, or proselytization), the explicitly religious activities must be offered separately, in time or location, from the programs or activities supported by direct Federal financial assistance.**

AND

 Participation must be voluntary for the beneficiaries of the programs or activities that receive direct <u>Federal financial assistance</u>."**

**(Resource: Section 5.109. Equal participation of faith-based organizations in HUD programs and activities. 24 CFR § 5.109 - Equal participation of faith-based organizations in HUD programs and activities. Section (e).) <u>https://www.law.cornell.edu/cfr/text/24/5.109</u>

CCC will also develop and provide a "*Beneficiary Written Notice*"*** to anyone upon enrollment in CCC programs and initiatives or those that visits the facility.

activities. 24 CFR § 5.109 - Equal participation of faith-based organizations in HUD programs and activities. Section (g).) <u>https://www.law.cornell.edu/cfr/text/24/5.109</u>

Section (J) of the Equal participation of faith-based organizations in HUD programs and activities states the following:

(j) Acquisition, construction, and rehabilitation of structures. Direct <u>Federal financial assistance</u> may be used for the <u>acquisition</u>, <u>construction</u>, or rehabilitation of structures only to the extent that those structures are used for conducting eligible activities under a <u>HUD</u> program or activity. Where a structure is used for both eligible and explicitly religious activities (including activities that involve overt religious content such as worship, religious instruction, or proselytization), direct <u>Federal financial assistance</u> may not exceed the cost of the share of <u>acquisition</u>, <u>construction</u>, or rehabilitation attributable to eligible activities in accordance with the cost accounting requirements applicable to the <u>HUD</u> program or activity.****

Currently the Baptist Church from Lebanon, NH is utilizing CCC for fellowship on Sundays for two hours, which is outside of normal hours of operation which should be covered by following regulation:

"If an organization engages in explicitly religious activities (including activities that involve overt religious content such as worship, religious instruction, or proselytization), the explicitly religious activities must be offered separately, in time or location, from the programs or activities supported by direct <u>Federal financial assistance</u>"

However, if it is found to be required, CCC estimates its cost share to be based on the following factors:

Estimated Hours CCC will be open to the public annually: 3744 Hours

Estimated Time the facility is used by another religious group annually: 104 Hours

Estimated Percentage of Time: 2.7%

Estimated Public Facilities Implementation Grant: \$400,000

Estimated Cost Share for CCC to allow for explicit religious programs: \$10,800.00

CCC RESOLUTION - UPDATED ON MARCH 30, 2021:

Item Three: Benefit –

What is the breakdown between religious activities vs. non-religious activities in this space? **A. Non-Discrimination Policy:**

Cornerstone Community Center does not and shall not discriminate on the basis of race, color, religion, gender expression, age, origin, disability, marital status, sexual orientation, military status in any of its activities and operations. These activities include, but are not limited to, hiring and firing of staff, selection of volunteers and vendors, and provision of services. Cornerstone Community Center is committed to providing an inclusive and welcoming environment for all participants, staff and volunteers, members of the board and visitors to the community center.

B. Non-Secular Programs and Initiatives:

Organization: Town of Hartford

Project Need

Cornerstone Community Center's programs and initiatives will be open to everyone and nonsecular. Religious teaching is what happens at Praise Chapel and is a separate program from Cornerstone Community Center.

C. In the event that other Faith Based Activity or Community Groups utilize the building:

CCC will prepare and estimated cost share in regard to Faith Based Community Groups use of the building. Due to the pandemic, the use of the building has been very limited this year. However, it is estimated that the percentage of use by secular groups is 3%. CCC will track the use of the building by secular entities in preparation for applying for an VCDP Public Facility Implementation Grant Application.

b) Identify other approaches that were considered and explain why they were not pursued.*

The following information was provided by the CCC -

Founders Lani and Kathleen Janiesse tried to purchase the Elks Lodge 12 years ago, but for various reasons, the sale could not happen. Since then, the founders have built a strong committee of community volunteers to support the mission and vision for the community center, created a capital campaign plan and committee, and purchased the property in December of 2019. Located in the heart of Hartford Village, the building is an ideal location for a community center and can be accessed and utilized by individuals, local businesses, and community and civic groups. CCC has recently met with the Park's and Recreation Commission about building a collaborative. Brett Mayfield, Hartford's Health Officer, recently toured the facility to consider how the center play an active role in Hartford's Emergency Response planning.

<u>VCDP Staff Analysis of Application - Project Need continued</u> *What other sites were looked at for this kind of community space?*

CCC Response to Staff Analysis

The committee did not formerly consider alternate sites for the community center but relied on their knowledge of the region and availability of facilities that would meet the mission and vision for a community center. Reimagining the use of what was at the time a nearly vacant historic building would provide many benefits to area residents. The facility was also available and affordable. Other advantages include its centralized location to the town hall, the public schools, banking, and shopping. Residents can also access the building by free local transportation service, by car, or by utilizing the Town of Hartford's safe sidewalk system.

VCDP Staff Analysis of Application - Project Need continued What is the overall square footage of the property?

<u>CCC Response to Staff Analysis</u> The building is 25,000 square feet.

Hotel Coolidge; VT Institute of Natural Science; Quechee Club Grand Ball Room;

Indoor Capacity: 200, Indoor Capacity: 220, Indoor Capacity: 200, White River Junction Quechee Quechee

<u>VCDP Staff Analysis of Application - Project Need continued</u> *How is this type of space viable now with COVID Times?*

CCC Response to Staff Analysis

Cornerstone Community Center event space is approximately 9,000 square feet and, under normal circumstances, can accommodate up to 400 individuals. CCC's event space remains viable and sought after because small to medium-sized groups can use the facility while also maintaining social distancing recommendations. Cornerstone has also implemented standards of practices for health and safety based on guidance provided by Vermont's Health Department.

All appropriate funding sources have been sought.

4. Describe the effort to obtain other funding, and why particular funding sources were considered but not pursued.*

The following information was provided by the CCC -

Cornerstone Community Center developed and implemented a capital campaign in 2019. To date, the project has raised just over \$350,000. Attached is a CCC's Fund Development report dated for June 8, 2020 for expansion and operations. VCDP financial support and completion of the feasibility study will provide CCC with the details for the overall renovation budget. A planning grant award will also enable CCC to pursue other funding sources such as those listed below.

6. Describe how the project meets the goals of the Consolidated Plan and identify the strategies that will be employed to meet those goals.*

The following information was provided by the CCC -

The State of Vermont's Housing and Urban Development 2020-2024 Consolidated Plan has identified four priorities. Those include Housing, Homelessness, Economic Opportunities and Strong Communities. Cornerstone Community Center goals primarily align and support Strong Communities. CCC's activities and deliverables provide beneficial outcomes for Housing, Homelessness and Economic Opportunities.

#1. Strategy: Provide safe, learning environments for children birth to 12 with special focus on children living with the following conditions:

very low, low- and moderate-income families

homelessness,

living away from their biological parents

living with trauma

#2. Strategy: Provide a Shared Service Hub that will support interagency and community collaborations supporting healthy children and families

#3. Strategy: Expand food delivery to children, families and adults of any age living with food insecurity, especially for those who are homeless or living in very low, low to moderate incomes

#4. Strategy: Culinary Academy and Workforce Development Initiatives will support the creation of new job opportunities and the local economy

#5. Strategy: Cornerstone Community Center will improve the quality of life for area residents of all ages and strengthen the entire community

#6. Strategy: "Seasons" will support older adults with the aging process

#7. Strategy: The conference and event center will support both the creative and local economy

Degree of health/safety risks to beneficiaries.

10. Describe how this project, if it were to be implemented, would directly address a health or safety issue for the intended beneficiaries.*

The following information was provided by the CCC -

Cornerstone Community Center has strong policies and procedures for addressing health and safety issues for all staff and participants, including best practices related to the pandemic. The programs for children uphold Vermont's Agency of Human Services, Child Development Division Licensing Rules for Child Care and Afterschool Programs. Faculty and Staff working with children and families have completed trainings for mandated reporting of neglect and abuse, as well as extensive training in regard to children and families living with trauma. CCC staff work closely with health care and mental health partners to make necessary referrals for all participants.

Timing Pressures

11. Please describe, if applicable, any particular issues that make this project "time sensitive".* The following information was provided by the CCC -

The vision of a fully operational community center has been a long time coming. CCC stands ready to launch these new initiatives and programs that ultimately provide a wide variety of primary and secondary benefits to Hartford and area residents. Funding and support from the Vermont Community Development Program with a planning grant and, and collaboration with the Town of Hartford will expedite the renovations, and allow us to get to implementation of these much needed services, at a

Project Impact

Level of beneficiary involvement in the development of the project, as appropriate.

12. Describe how persons of low- and moderate- income were involved in the development of this project. How have they shown support?*

The following information was provided by the CCC -

While shaping Cornerstone Community Center in its formative years. members of the expansion committee interviewed and collected information from the current participants regarding programs that would support their needs and those of the overall community. Participants accessing the food shelf were asked to complete the Vermont's Agency of Education's Statement of Eligibility to receive USDA Foods from The Emergency Food Assistance Program (TEFAP). Volunteer Staff met one-on-one with people accessing the food shelf, explained the need for income information, and assisted people in completing the forms. Many of the constituents that access the food shelf support the program by volunteering their time to work there.

Each family and staff member utilizing the early care and education and out-of-school time programs receives a letter outlining the request for income verification. They are also asked to complete Vermont's Community Development Project's Family Income Statement for Public Facilities Projects. Parents participate in many volunteer activities to support programs for children, by completing need surveys and making other contributions of time and labor. Families in a position to making -kind contributions generously commit to the Center's development in that sense as well.

How well the project indirectly impacts the community and/or additional LMI people.

13. Describe the indirect impact to the community, if it were to be implemented, and other LMI beneficiaries that may be indirectly served by the project.*

The following information was provided by the CCC -

Cornerstone Community Center's "Shared Services Hub" will serve as a portal to other human service agencies, mental health and wellness agencies. Participants, especially those with low to moderate income levels will have direct access to services at the center. CCC envisions agency personnel with have meeting spaces and offices located in the building. These agencies include the Department of Children and Families, public health staff, mental health therapists, and social workers.

Project Feasibility

Readiness to start within four months of the award.

14. Please specifically identify the level of access to any land or buildings that will be required in order to complete your project as proposed; please explain when and how you expect to obtain such access. For specific information about site control requirements refer to the <u>VCDP Application Instructions</u> and <u>Program Guide.</u> *

Cornerstone Community Center was purchased by Lani and Kathy Janiesse in December of 2019. Full access to the building and grounds is available and will remain available during the planning grant process.

15. Please Identify the status of commitments from each other funding source; please identify when commitments are expected from each funding source.*br />The following information was provided by the CCC -

The CCC has received a grant from People's United Bank in the amount of \$2,500 towards the overall expansion and renovation of the community center. The board has restricted \$500 as the 10 match for the VCDP planning grant's general administration costs.

The CCC received a grant from Byrne Foundation in the amount of \$50,000 towards the overall expansion and renovation of the community center. The board has restricted \$4,670 as the 10 match for the planning portion of the VCDP grant.

The materials are attached in the Attachment Section

Benefit/Timeframe Feasibility

16. There must be a reasonable expectation for achieving benefits for persons of low- and moderateincome if the plan(s) developed with the use of VCDP funds was to be implemented. Explain what the anticipated benefit(s) would be and how this was determined.*

The following information was provided by the CCC -

Cornerstone Community Center collected data from participants and families accessing the food pantry and the child care programs in 2019 and 2020. CCC collected income eligibility forms from 93 participants. Of the participants surveyed, 69 % of the participants are at or below 50 % of the median income of \$39,650 or less. We expect to achieve similar benefits for people of low to moderate income levels once all of the organization's initiatives are operating. Please see Attached LMI Data report for Cornerstone Community Center for 2019-2020.

Despite best efforts and built in contingencies, please explain how cost overruns will be covered.* The following information was provided by the CCC -CCC expansion committee has been working towards opening the Community Center since the Fall of 2019. The funders and committee members voted to research and apply for funding through the Vermont Community Development Project so that true costs to could identified early prevent cost overruns as much as possible. CCC, along with its partners will monitor costs during the planning and implementation process to avoid cost overruns utilizing Generally Accepted Accounting Practices and Project Management tools. Finally, CCC's expansion committee acknowledges that there are cost overruns that can not be avoided. In addition to utilizing effective project management, the action plan is to continue to raise new funding throughout the development of the community center.

Describe how the funds were used during the past three years. Give the purpose including verification of eligible activity and amounts for each loan or grant.

Over the past year three loans have been process amounting to \$250,000, - \$150,000 for a new car dealership; \$50,000 for the expansion of a a local financial accounting business in a vacant building; and \$50,000 towards the establishment of an adult day care facility in a vacant building.

Describe the process used to "Obligate" in Schedule 1 from the amounts listed in Schedule 2. Include a copy of loan policies that govern the expenditure of revolving loan funds.

The Town contracts with Green Mountain Economic Development Corporation (GMEDC) to administer the HBRLF program review to receive and review applications for completeness. Applications then are reviewed by to the Selectboard appointed HBRLF Committee. If approved, the application is forwarded to the Selectboard for review and approval. See Attachment Section for the HBRLF Program Guidelines on the policies and procedures.

Explain what loan payments are expected during the term of the proposed project(s),

whether there will be balloon payments or other receipts of funds.

Currently, all loan payments are being deferred due to COVID. The Town will be revisiting the deferment again in September if it should be extended.

Indicate whether or not there has been any consideration given to selling the loan portfolio on the secondary market. If so, when would that happen?

Given the local nature of the program, the Town prefers to maintain the portfolio. This approach has allowed flexibility in restructuring loans to allow businesses to be successful, such as now with loan payment deferments during the COVID Pandemic.

Provide an explanation of any portion of the amount potentially available that is not being committed to the proposed project(s).

The recent COVID grants to businesses and 6 months of loan payment deferments due to COVID, leave a very small balance in the RLF. Commitment of any of these funds will curtail the Town's ability to be responsive to the ongoing needs of our businesses in the foreseeable future.

Cornerstone inspires and nurtures everyone in community.

Needs Statement:

The Upper Valley is a thriving community, yet there are people living with homelessness, joblessness, and poverty. Over the past several years, CCC's expansion committee led by its founders identified the Upper Valley community's needs through research, data collection and surveys of the community residents. Needs were identified in a number of areas that include programs for youth, adults in transition, older adults, and support for workforce, career and workforce development.

Vision:

CCC is a community center where children, teenagers and adults are truly valued and provided equitable access to the resources they need to *turn a corner for change*. The overarching goal of CCC is to create a sense of place for people young and old, especially as they use CCC as a vehicle to generate new, healthy relationships and strengthen existing ones.

Purpose:

Cornerstone is a community center where children, teenagers and adults of all ages are truly valued and provided with the resources they need to *turn a corner for change*.

Participants:

As our banner states, CCC is a place where *everyone* can come belong and thrive. CCC is an equal opportunity provider and pledges to not discriminate again anyone based on race, color, religion, sex, national origin, age, disability or genetic backgrounds. While there is minimal ethnic diversity in our region, there is a broad diversity in regard to socio-economics in the region. CCC collects household income and family size information of our participants. Below is the summarized data of Low to Moderate Income information that was collected in 2019-2020.

| 2019-2020 CCC Low to Moderate Income Data | | | | |
|---|--|---|---|----------------|
| Number of Responses: | Extremely Low 30 of Median <\$23,790 | Very Low 50 % of Median <\$39,650 | Low 80% of Median Income <\$ 63,440 | Over Income |

| 93 Percentage: | 31 34% | 33 36% | 28 30% | -1% |

Community Impacts:

Identified Needs:

#1. Increased access to high-quality early care and education as well as Out of School Time programs for youth.

#2. More deeply integrated services, where human service agencies, health care providers and mental health providers can convene to support children, families and adults and those in transition.

#3. Increased food insecurity in the region.

#4. Need for Workforce Development, a local culinary education program, and support for those entering or reentering the workforce, support for the local and creative economies.

#5. A greater "Sense of Place" to build relationships and resiliency.

#6. More programs and services that support older adults to meet the growing demand.

#7. A conference and event center for Hartford, Vermont and the surrounding region.

#8. Preservation and maintenance of a historical building for the Town of Hartford.

CCC's Activities to Address Need:

#1. *Expand* Birth to 5 child care with 40 additional openings. *Expand* and provide up to 100 Out of School Time openings.

#2. Provide space for a <u>"Shared Services Hub"</u> where practitioners can collaborate on services to benefit individuals.

#3. Increase food delivery by 15-25% in 2021.

#4. Provide education and programs through a workforce development program. Initiate a "Culinary Kitchen" for training people in the food and hospitality industries. **Create 14 full time and 14 part time new jobs.**

#5. CCC will be a place where people can gather to gain a sense of belonging, safety and resiliency. More people will be connected and access needed services.

#6. "*Seasons Senior Program*" will be open to area seniors. First Year: **25**, Second: **50**.

#7. A 9,000 sq foot <u>*Event Center*</u>, capable of hosting 400 comfortably serving a multitude of programs and businesses. Community

#8. Preserving a place for enjoyment for years to come. Increase property values and Community.

Cornerstone inspires and nurtures everyone in community.

AGENDA MEMORANDUM April 6, 2021 Town Selectboard Meeting Item: 4.b. Submitted by: Joe Turner, Assessor

| Subject: | Ongoing Real Property Appeals and Potential Impacts |
|-------------------|--|
| Background: | Vermont state statute 32 V.S.A. §§ 4111 and 32 V.S.A. § 4404(a) allow for taxpayers to grieve their property values, applied fees, and current use eligibility. This happens when the taxpayer disagrees with an aspect of the property assessment. The Town of Hartford currently has five appeals ongoing from 2018, 2019, and 2020. |
| Discussion: | Two of the five appeals have recently been settled with decisions from the Vermont Property Valuation and Review (PVR). Three of the five are currently being heard with the Superior Court. |
| Financial Impact: | Financial impacts would be seen through the Grand List value. All appeals have the ability to negatively impact property value and income through fees. Value decisions can vary and final value decisions can take an extended period of time to resolve. |

Notes: All three appeals are currently being heard by the Superior Court. **The probable value is based on the Assessor's opinion and the final value loss could be different.**

Appeal Process:

Step 1- The initial Grievance

- Tax payers have fourteen days to fill a written grievance after change of value notices are sent
- These grievances could be for assessed value, exemption statues, or current use program inclusion
- After the fourteen day period the Assessors Office processes the grievances and informs the taxpayer

Step 2- Appeals to the Board of Civil Authority

- If the appellant disagrees with the assessors decision they may file an appeal with the BCA
- The appellant has fourteen days from when the initial grievance decision is sent by the assessor
- The BCA hears both cases and makes a decision

Step 3- Appeals Beyond the Board of Civil Authority

- The decision of the BCA may be appealed to the state appraiser (PVR) or the Superior Court
- The appellant has thirty days to file the appeal after the mailing of the BCA decision
- Typically the PVR will hear value related issues while the Superior Court hears legal issues

Step 4- Appeals to the Vermont Supreme Court

- If either party is dissatisfied with the results of the PVR or the superior court they can appeal to the Supreme Court
- This is the last step and all decisions are final
- Note: At any time during Step 3 the Town and the appellant can reconcile. When this occurs a stipulation agreement must be filed. The stipulation agreement needs to be signed by both the appellant and the Select Board Chair.

Statement of the case

This is an appeal of Bridge and Main Housing Limited Partnership of the Hartford Board of Civil Authority decision regarding the assessment of their property located at 27 North Main Street in Hartford, Vermont. The property consists of 6.0 acres of land and 16 income restricted residential rental units that qualify under Act 75. The value of this property for the April 1, 2019 grand list was 979,400 dollars. Upon appeal the Board of Civil Authority maintained that valuation. The decision of the Hartford Board of Civil Authority was appealed to the Property Valuation and Review division.

To determine the correct valuation of this property an appeal was heard pursuant to 32 V.S.A. §4461 through 4467, via Zoom conferencing on Tuesday November 23, 2020 at 10 am by a Property Valuation and Review hearing officer. Procedure in this case is governed by the contested case provisions of the Vermont Administrative Procedure Act, 3 V.S. A. § 801 et seq.

Bridge and Main Housing Limited Partnership was represented by Ms. Susan M. Kuegel. On behalf of the town was Mr. Jeremiah Sund, Town Assessor and Cristina Tardie the Assistant Town Assessor. Evidence was submitted and all parties were sworn in. No objections were made regarding presented evidence by either party.

Finding of Fact

This is a de novo property valuation appeal of Hartford's Board of Civil Authority decision pursuant to 32 V.S.A. § 4461-4469. The valuation was set for the 2019 Grand List at \$979,400 dollars. This value was appealed to the BCA and was not changed. The appellant filed an appeal of this decision to the Property Valuation and Review division.

The subject property consists of 6 acres of land with 16 HUD income restricted residential rental units and 1- non income restricted unit located at 27 North Main Street in Hartford, Vermont.

I find the Highest and Best Use of the property is the present residential use as it meets the following criteria: legal permissibility, physical possibility, financial feasibility, and maximum profitability.

This property is not enrolled in the current use program.

The equalized ratio for this specific property category is 100 percent per the Property Valuation and Review subsidized housing worksheet for April 1, 2019.

The listers set the abstract grand list at \$1,004,000 and reduced the value to \$979,400 dollars after grievance.

Discussion

To prevail in an appeal under 32V.S.A §4467 the appellant must overcome the presumption of validity accorded the towns valuation. The appellant has overcome this presumption by introducing an opinion of value based on the income and expense approach Exhibit A2. However, the burden of persuasion remains with the taxpayer on all issues and does not shift to the town.

The hearing officer reviewed the 2019 Board of Civil Authority decision Exhibit T1. It is not possible to determine all the details that transpired during that hearing. The assessor at that time is no longer employed by the town. When explaining her position, she took 8 months of expenses and annualized them for 12 months but did not make any utility adjustments. She did consider additional expenses provided by the appellant and reduced the property valuation to \$979,400 dollars. There is no comment regarding what that additional expense was. No information was offered regarding the income figures used in the calculation.

Towns Evidence

Since the 2019 BCA hearing the appellant informed the new town assessor that tenants pay a utility allowance, and a yearly audit expense was not reflected in the 3rd party end of year audit. Using this information, the assessor reappraised the property, and a new valuation of \$821,700 dollars was determined **Exhibit T2**.

The income and expenses used to determine this new proposed valuation was taken from the end of year 2018 financial statements provided by the certified public accounting firm **Exhibit T3**. To comply with Vermont legislation the assessor used the income and expense form provided by the Property Valuation and Review Department. This form is used for valuing residential rental property subject to a housing subsidy **Exhibit T2**.

Monthly rents for the 16 income restricted units were taken from Housing and Urban Department guidelines. The vacancy rate of 4 percent was used as provided by HUD. The base capitalization rate of 8.25 percent and the effective tax rate of 2.4781 yielded a total capitalization rate of 10.7 percent as provided by Property Valuation and Review. The non-subsidized rental unit was valued at \$1,066 dollars per month.

Appellants Evidence

The appellant provided two proposed valuations. Exhibit A1 indicated a valuation of \$374,100 dollars using 8 months of income and expenses taken from the certified public accounting firms end of year 2018 tinancial statement. The appellant agreed this figure was not realistic. The second valuation Exhibit A2 generated a figure of \$624,300 and was based on 12 months of projected income and expenses taken from the Vermont Housing and Finance Agency statement ending on December 31, 2019. This was the valuation the appellant would defend.

Like the format used by the town, the appellant used the income and expense form provided by Property Valuation and Review. Monthly rents for the 16 income restricted units were taken from Housing and Urban Department guidelines. The vacancy rate, base capitalization rate, the effective tax rate and total capitalization rate were identical to those used in the towns calculation. The non-subsided unit was valued at \$1,100 dollars per month.

Ms. Kuegel's position was that using end of year 2018 financial statements (8 months of income and expenses) annualized for 12 months did not represent all the expenses that would occur if a full year of data were available. Taking the Vermont Housing Finance Agency's Annual Operating Projected Budget for the year ending December 31, 2019 was more realistic.

Summary

The difference in reported gross income was not a significant variable in the final valuations. Reported gross expenses and the source used to obtain this figure was.

| | Town | Appellant |
|--------------------|-----------|-----------|
| Gross monthly rent | \$147,912 | \$148,368 |
| Gross income | \$155,289 | \$159,142 |
| Expenses | S67,364 | \$92,344 |
| Valuation | \$821,700 | \$624,300 |

The town assessor stated he is required by statute to use the guidelines that govern subsidized residential rental property as outlined in 32 V.S.A. §3481 (1) (B), to determine a valuation. He added the following comment in his presentation Exhibit T6.

Actual expenses incurred with respect to the property shall be provided by the property owner in a format acceptable to the commissioner and certified by an independent third party, such as a certified public accounting firm. However, that is not the entire paragraph referenced. In the statute is continues to say or public or quasi-public funding agency.

Whether a certified public accounting firm or a public or quasi-public funding agency, the end of year financial statements is used to determine the listed value for the following April 1, grand list. For this appeal, the 2018 end of year financial statements should be used to establish a value for April 1, 2019. Neither party suggested another methodology.

The appellant used the VHFA's annual projected operating budget for the year ending December 31, 2019. The town objected to using financial statements that would be used for the April 1, 2020 grand list to support the appellant's position.

The town used 8 months of income and expenses certified by a public accounting firm for the year ending 2018 annualized for 12 months. To those figures the assessor made utility adjustments to each of the subsidized 16 rental units. In addition, he added end of year audit expenses provided by the appellant that were not part of the 2018 financial statements.

The hearing officer has decided the appellant has not overcome the burden of persuasion accorded the towns valuation. Projected or certified VHFA income and expenses ending on December 31, 2019 are for April 1, 2020 grand list values. The town assessor used annualized 2018 end of year financial statements adjusted for tenant utilities and audit expenses as summarized above. The hearing officer finds the towns valuation the more compelling argument.

Conclusion of Law

Based on the foregoing Findings of Fact the following is concluded as a matter of law:

The fair market value of this parcel is \$821,729 dollars. The equalized ratio for this specific property category is 100 percent per the Property Valuation and Review subsidized housing worksheet for April 1, 2019. The equalized grand list value round down for the April 1, 2019 grand list will be \$821,700 dollars.

Pursuant to 32 V.S.A. §4468, this shall be the listed value for the subject property for the 2019 Grand List and for the following two years unless the property is materially altered, changed or the town undergoes a complete revaluation of all taxable real estate.

Statement of the case

This is an appeal of Overlook Housing Limited Partnership of the Hartford Board of Civil Authority decision regarding the assessment of their property located at 36 Overlook Drive in Hartford, Vermont. The property consists of 3.49 acres of land and residential rental property that is subject to a housing subsidy covenant. The value of the property for the April 1, 2019 grand list was \$575,500 dollars. Upon appeal the Board of Civil Authority maintained that valuation. The decision of the board of civil authority was appealed to the Property Valuation and Review division.

To determine the correct valuation of this property an appeal was heard pursuant to 32 V.S.A. §4461 through 4467, via Zoom conferencing on Tuesday November 10, 2020 at 10 am by a Property Valuation and Review hearing officer. Procedure in this case is governed by the contested case provisions of the Vermont Administrative Procedure Act, 3 V.S. A. § 801 et seq.

Overlook Housing Limited Partnership was represented by Ms. Beth Long Deputy Director and Mr. Andrew Winter Executive Director of the Twin Pines Housing Trust and, the managing agent for the appellant. On behalf of the town was Mr. Jeremiah Sund, Town Assessor, and the Assistant Town Assessor, Cristina Tardie. Evidence was submitted and all parties were sworn in.

Findings of Fact

- 1. This is a de novo property valuation appeal of Hartford's Board of Civil Authority decision pursuant to 32 V.S.A § 4461-4469. The valuation set for the 2019 Abstract Grand list was \$575,500 dollars. This value was appealed to the BCA and was not changed. The appellants filed an appeal of this decision to the Property Valuation and Review division.
- 2. The equalized ratio used for this category type is 99.92 percent as generated from the Property Valuation and Review's subsidized housing spreadsheet.
- 3. This is a 10 unit subsided residential rental property with 3.49 acres of land located at 36 Overlook Drive in Hartford, Vermont.
- 4. I find the Highest and Best Use of the subject property is the present residential use as it meets the following criteria: legal permissibility, physical possibility, financial feasibility, and maximum profitability.
- 5. This property is not enrolled in the current use program.

Discussion

To prevail in an appeal under 32 V.S.A § 4467 the appellant must first overcome the presumption of validity accorded the towns valuation. However, the burden of persuasion remains with the taxpayer on all issues and does not shift to the town.

The appellant grieved their tax status of the subject property to the Board of Civil Authority on July 17, 2019. A hearing was held on August 22, 2019, where the issue centered around the tax status of the subject property. The appellant stated that Overlook Housing Limited Partnership is a non-profit organization and therefore tax exempt. The town's response was they are a covenant restricted subsidized housing entity and not tax exempt. The BCA determined the question regarding tax exemption would have to be resolved by the appellant and the assessed value was maintained. The appellant grieved this decision to the Property Valuation and Review division.

Prior to the October 14, 2020 Property Valuation and Review Hearing the town submitted a Motion to Dismiss. Their position was the hearing officer does not have jurisdiction over the tax-exempt status of properties and, as this was the entire substance of the BCA appeal, this should be brought before the superior court. In response, the hearing officer agreed with that position. However, all appeals to the PVR are de novo and the appellant could move forward regarding the grand list value, therefore the Motion to Dismiss was denied.

On October 14, 2020, a hearing was held via Zoom conferencing. The meeting began with the hearing officer stating the tax status of properties does not come under the jurisdiction of the hearing officer. Property Valuation and Review does have authority to hear arguments regarding property valuations.

The appellant's presentation included two combined properties, 36 Overlook Drive, and 374 South Main Street. The town assessor and hearing officer informed the appellant that only one property can be appealed as both properties were not contiguous. The hearing officer decided to grant a continuance for November 10, 2020, and all parties agreed that only the property located at 36 Overlook Drive will be appealed at that time.

On November 10, 2020, the appeal regarding the valuation of 36 Overlook Drive began. The town stated their position regarding the grand list value (Exhibit TI). The appellant disagreed with the town assigning a rental value to the property managers unit. The assessor stated that rental potential of all units in the building had to be accounted for and decided to use the HUD rate of \$882 vs a contract rent. The appellant felt that if the property managers unit was considered income compensation for the property manager should also be added to the expense side of the valuation.

Further dialog between the parties continued and the use of this unit and its role on the income and expense data was resolved as follows. The valuation of \$882 dollars per month for rental income would continue to be used for the manger's unit, and the total gross income of \$127,990 dollars was unchanged. A charge of \$10,393 would be added to the actual expenses of the building bringing this total to \$79,055. At this time, the town offered a reduced valuation from \$575,000 dollars to \$475,097 equalized to \$474,700. This new figure and the justification for it was acceptable to both the appellant and the town.

Ms. Long asked if the new number agreed upon would be the valuation for the 2019, 2020 and 2021 grand list. The hearing officer informed her that it might be if no other evidence were presented by the appellant. That was understood by all parties, and no further evidence was submitted. The hearing officer closed the appeal.

Summary

The income and expenses used for this appeal were taken from 2017 end of year financial statements and the PVR spreadsheet for the April 1, 2018 grand list. This appeal is for the April 1, 2019 grand list. This was the best data available to both parties as the certified financial statements provided to the town combined two properties (36 Overlook Drive and 374 South

Main Street). The data used for this appeal is noted on town exhibit TH a questionnaire sent by the assessor's office to the appellant on January 9th, 2018. The requested data was returned on January 10, 2018 (exhibit TH form A). It would have been preferred that the end of year 2018 financial statements be used but were not available.

The hearing officer found the data used to determine the final valuation of this property to be the best available at the time of this hearing. The HUD rents, vacancy rates and capitalization rates were not contested by either party and acceptable to the hearing officer based on industry standards, state provided information and the best data available at the time. The hearing officer could not find any bias in the rationale of the town or appellant in the methodology used to determine the agreed upon valuation.

Conclusion of Law

Based on the foregoing Findings of Fact the following is concluded as a matter of law:

The fair market value of this parcel is \$475,097 dollars. The figure will be equalized by 99.92 percent to yield an equalized listed value of \$474,700 dollars. The equalized value of 99.92 percent represents the specific category type generated from the Property Valuation and Review's subsidized housing spreadsheet.

Pursuant to 32 V.S.A. §4468, this shall be the listed value for the subject property for the 2019 Grand List and for the following two years unless the property is materially altered, changed or the town undergoes a complete revaluation of all taxable real estate.

AGENDA MEMORANDUM April 6, 2021 Town Selectboard Meeting Item: 4.d. Submitted by: Scott Cooney, Fire Chief

| Subject: | Annual Ambulance Debt Write-Off |
|---------------------------|---|
| Background: | The fire department currently bills for patient transports. The current rates are: ALS 1 \$650.00, ALS 2 \$850.00, BLS \$575.00, Loaded miles \$14.50 per mile, Paramedic Intercepts \$375.00 plus procedures. Uncollected debt accrues annually, from Medicaid and Medicare mandatory write-offs and uncollectable debt from untraceable patients or refusal/inability to pay. |
| Discussion: | The finance department and the fire department have developed a process to only record two years of uncollectable debt. The third year is written off each calendar year. This year the total write-off required for the 07/01/2017-06/30/2018 period is \$93,239.54. |
| Financial Impact: | There is no financial impact as these funds remain uncollectable. |
| Recommendation Motion: | I move to authorize the Town Manager to authorize the Finance Director and the fire department to write-off \$93,239.54 as uncollectable ambulance debt. |

CATV LINK: <u>http://catv.cablecast.tv/CablecastPublicSite/show/14137?channel=1</u>

The Chair read this script:

As Chair of the Town of Hartford Selectboard I find that, due to the State of Emergency declared by Governor Scott as a result of the COVID-19 pandemic and pursuant to Addendum 6 to Executive Order 01-20 and Act 92, this public body is authorized to meet electronically.

In accordance with Act 92, there is no physical location to observe and listen contemporaneously to this meeting. However, in accordance with the temporary amendments to the Open Meeting Law, I confirm that we are:

a) Providing public access to the meeting by [telephone/video/other electronic means], with additional access offered through telephone, zoom and youtube.com. We are using Zoom for this remote meeting. All members of the Board have the ability to communicate contemporaneously during this meeting through this platform and the public has access to contemporaneously listen and, if desired, participate in this meeting by <u>https://zoom.us/j/549799933</u> - Please mute your microphone,

b) Providing public notice of instructions for accessing the meeting. We previously gave notice to the public of the necessary information for accessing this meeting, including how to access the meeting using telephone, zoom and youtube.com in our posted meeting agenda. [Instructions have also been provided on the town website on the "Agendas and Minutes."]

c)Providing a mechanism for the public to alert the public body during the meeting if there are problems with access.

d)Continuing the meeting if necessary. In the event the public is unable to access this meeting, it will be continued to a time and place certain.

Please note that all votes taken during this meeting that are not unanimous will be done by roll call vote, in accordance with the law. Let's start the meeting by taking a roll call attendance of all Selectboard members participating in the meeting.

I. Selectboard Meeting: Selectboard Chair, Dan Fraser called the meeting to order at 6:00 PM.

II. Pledge of Allegiance: The Pledge of Allegiance was recited.

III.Order of Agenda No changes to the order of agenda.

IV. Selectboard

1. Public:

Mike Morris from Hartford asked about the south main parking lot concerns and the cars that were towed from this lot. Town Manager, Tracy Yarlott-Davis responded that in the Town Manager's report tonight is the update on this issue and for the most this was taken care of before this meeting so it is not needed to be on this agenda. Mr. Morris expressed his concern about the "chat" function of the zoom meetings not be available for the public. Selectboard Chair, Dan Fraser responded that because of the open meeting laws and the advice from VLCT the public chat will not be accessed.

Cathy Melocik from Wilder asked if the Liquor Licenses could not be on the Selectboard Agendas and not be the responsibility of the Selectboard to approve. She also thanked Maggie Cassidy from the Valley News for all she has done covering issues of Hartford. Ms. Cassidy is leaving the Valley News and going to VT Digger.

Jack Peisch, a teacher at the Hartford school system, asked the Board if they would advertise and hire a community wellness coordinator that was approved in the budget. He stressed the importance of this position. Town Manager, Tracy Yarlott-Davis reported that we are waiting for the draft contract to come back after review.

Preston Houck from WRJ called. He had his car towed from the south main street parking lot for snow removal. At this point he has not claimed his car that now is owed more to Sabil and Sons than the car is worth. He is asking for the Town to help out with the expenses or take the care for donation. The Town cannot accept the car as a donation. Selectboard Member, Rachel Edens suggested that he could donate it to the Haven.

Selectboard Comments:

Dennis Brown spoke to the Board about WRJ parking. He noted that Lebanon is potentially approving playing fields in a flood zone. He doesn't understand why Hartford cannot approve a parking lot in a flood zone. The particular area he spoke of is the land owned by Home and Hearth. Citizen, Mike Morris commented that the Home Hearth property needs to be seriously considered. Joe Major agreed with Mr. Brown. Downtown WRJ parking is an issue and he (Joe Major) has some ideas to explore options. Now that we are hopefully heading out of the pandemic, some out of the box thinking is needed for the increase of parking needed. Kim Souza hopes to have significant time to discuss the parking in future meetings or as a topic for the "listening sessions." She also reminded the Selectboard that 50+ spaces will be added when the south main street parking lot is expanded perhaps as soon as this summer. Gwen from WRJ called in at this time to follow-up on the towing issue from that lot. She owns property and her tenants use this lot. There needs to be a plan for the future and she will start with collect contact information from her tenants.

2. Appointments:

a. Consider the Re-Appointment of Matt Osborn as Acting Zoning Administrator for a three-year term beginning March 23,2021 and ending March 22, 2024.

Selectboard Clerk, Kim Souza made the motion to re-appoint Matt Osborn as Acting Zoning Administrator for a three-year term beginning March 23,2021 and ending March 22, 2024. Selectboard Member, Dennis Brown seconded the motion. All were in favor and the motion passed.

b. Consider the Appointment of John Heath to the Hartford Planning Commission for a three-year term beginning March 23, 2021 and ending March 22, 2024.

Selectboard Vice Chair, Joe Major made the motion to Appoint John Heath to the Hartford Planning Commission for a threeyear term beginning March 23, 2021 and ending March 22, 2024. Selectboard Member, Ally Tufenkjian seconded the motion. All were in favor and the motion passed.

c. Consider the Re-Appointments of F.X. Flinn as Representative and Jeff Brand as First Alternate and Bob Merrill as Second Alternate for the East Central Vermont Telecommunications District (ECVTD) to serve until successors are duly appointed.

Selectboard Member, Ally Tufenkjian made the motion for the Re-Appointments of F.X. Flinn as Representative and Jeff Brand as First Alternate and Bob Merrill as Second Alternate for the East Central Vermont Telecommunications District (ECVTD) to serve until successors are duly appointed. Selectboard Member, Rachel Edens seconded the motion. All were is favor and the motion passed.

3. Town Manager's Report:

Significant Activity Report. https://www.hartford-vt.org/ArchiveCenter/ViewFile/Item/207

Highlights:

Town Employment Vacancies

Currently, the town has a number of vacancies across departments. In addition, Department Heads have been requesting additional positions to address workload increases in a number of departments. Anecdotally, it appears that Town staffing has not grown along with other indicators of growth such as resident population, town services, and general development. This will warrant further investigation over the next year.

Vacancies: Planning 1, Finance 1, Public Works 2, Parks & Recreation 1, Police Operations 7, Emergency Communications 3.

Hartford Fire also has two vacancies but has already started the hiring process to fill those.

Fire and Police Outstanding Service

Earlier this month one of our officers began CPR 011 a person who was unconscious while both Hartford and Lebanon sent ambulances. Chief Cooney told me that our officer's quick thinking and strong CPR skills ensured that the patient was transported to the hospital with a heartrate, pulse' and breathing.

Update on Towing

Last week, Public Works contacted those financially affected by the urgent towing for snow and ice maintenance in the South Main Street Lot. We were able to offer reimbursement of towing fees and up to two days of storage to those that had contacted Public Works or the Town Manager's office. Public Works staff is also working on a comprehensive plan for managing regular and urgent maintenance issues in Town parking lots for both summer and winter.

First Fridays

Starting in May, we'll see the return of First Fridays with the Light River Junction First Fridays with WRIF! This is part of an \$18,000 grant from the Vermont Community Foundation, the Agency of Commerce and Community Development and the Better Places partners. Out of 63 applications, this project was one of eight selected. It will allow White River Junction to host multiple film and media arts programs and displays while patrons enjoy food and beverage from local restaurants.

4. Public Hearing: Selectboard Chair, Dan Fraser recessed the Selectboard Meeting and opened the Public Hearing at 6:50 P.M.

Amendments to Zoning Regulations to Create Two New Zoning Districts (HCR & QCR) Presented by Lori Hirshfield, Director of Planning and Development Department and Bruce Riddle, Planning Commission Chair.

Change a Section of Industrial Commercial (IC) in White River Junction to Highway Commercial Residential (HCR): On the east side of Route 5 near the intersection with Route 4, there is a small area (five properties) that currently is zoned Industrial Commercial and includes the Listen property (formerly 25,000 Gifts) as well as a duplex, mixed-use building and the former Morris Homes model. See attached map. The IC zoning district does <u>not</u> allow residential or mixed-use development. The proposed Highway Commercial Residential (HCR) zoning district would make single-unit dwellings and two-unit dwellings permitted uses in the district and make multi-unit dwellings and mixed-use buildings (residential and commercial development) conditional uses. Other proposed changes include moving some permitted uses to the conditional use side or eliminating the use all together. The enclosed proposed HCR zoning district sheet shows these proposed changes compared to the IC zoning district. The proposal includes changing the designation to "Highway Commercial Residential".

Change Highway Commercial in Quechee to Quechee Commercial Residential (QCR): The Highway Commercial (HC) zoning district in Quechee includes Route 4 at the junction of Waterman Hill Road and includes the west side of Cross Street and West Gilson Avenue. See attached map. The HC zoning district does <u>not</u> allow residential or mixed-use development. The proposed Quechee Commercial Residential (QCR) zoning district would make single-unit dwellings and two-unit dwellings permitted uses in the district and make multi-unit dwellings and mixed-use buildings (residential and commercial development) conditional uses. Other proposed changes include moving some permitted uses to the conditional use side or eliminating the use all together. The enclosed proposed QCR zoning district sheet shows these proposed changes compared to the HC zoning district. The proposal includes changing the designation to "Quechee Commercial Residential (QCR)."

Selectboard Chair, Dan Fraser closed the Public Hearing and reopened the Selectboard meeting at 7:15 P.M.

- 5. Board Reports, Motions & Ordinances:
 - a. Amendments to Zoning Regulations to Create Two New Zoning Districts (HCR & QCR) (Motion Required)

Selectboard Clerk, Kim Souza made the motion to adopt the Zoning Regulation Amendments to establish the new Highway Commercial Residential and the Quechee Commercial Residential Zoning Districts As proposed, and any other non-substantive changes to the Zoning Regulations necessary to integrate these two new zoning districts into the bylaw. Selectboard Vice Chair, Joe Major seconded the motion. All were in favor and the motion passed.

b. Town and School Meeting Committee Update (Information Only) Presented by Town Manager, Tracy Yarlott-Davis.

The Town Charter requires that the Town and School jointly manage a Town and School Meeting Committee. The Committee is charged to:

Organize, arrange, and provide for the comfort, presentation, publicity, program, refreshments, entertainment, and other non-statutory aspects of the Town meeting cycle, such as the Budget and Candidates Night meeting and the Town and School District Day meeting. *{24 App. V.S.A. ch. 123A, § 201)*

The Committee consists of five members:

- One member serving a two -year term appointed by the Town Clerk
- One member serving a two-year term appointed by the Town Selectboard
- One member serving a three-year term appointed by the Town Selectboard
- One member serving a two-year term appointed by the Town School Board
- One member serving a three-year term appointed by the Town School Board

It is unclear why this Committee lost membership, but it has not been very active for many years. For the last two years, Town staff have provided a baseline compliance with the Charter. However, this is not the intent of the Charter or the Committee

Our Town Clerk, Lisa O'Neil has reached out to many regular election cycle volunteers to ask if they are interested in serving on this Committee to serve in the position that is appointed by her. The School Board has one person who has applied.

Recommendation: The Town Manager recommended that the Selectboard actively solicit for members to serve in the positions allocated to the Selectboard. This will allow the committee to be a robust resource for the Town and School for the 2022 meeting. These openings will be posted on listserv and other social media sites.

c. COVID Committee Membership and Charge

The current committee will examine the charge to include membership requirements and will submit a proposal to update this in the coming weeks. The needs of the community have changed and this will be reflected in the work the committee continues to do.

d. Strategic Equity and Inclusion Plan

Selectboard Vice Chair, Joe Major has begun to act on establishing the implementation of the Strategic Plan done two years ago. He has asked Selectboard Member, Rachel Edens to help him and to spearhead the implementation of this plan. Major Brad Vail reported that the police are going to an e-ticket for all traffic stops. This will help to collect the data. Race is a requirement to produce the ticket. Dillon Walsh is working with the State to get this up and running. Joe Major will be talking to the authors of the document. This plan will continue to evolve with feedback from the Staff, Community and Selectboard.
